|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|------------|
| 1  | Effects of an mHealth App (Kencom) With Integrated Functions for Healthy Lifestyles on Physical Activity Levels and Cardiovascular Risk Biomarkers: Observational Study of 12,602 Users.                  | <a href="https://doi.org/10.2196/21622">https://doi.org/10.2196/21622</a>                                                             | 2021.05.02 |
| 2  | 健康診断データとレセプトデータの匿名加工情報を用いた疾病リスク分析                                                                                                                                                                         | <a href="https://doi.org/10.20729/00212761">https://doi.org/10.20729/00212761</a>                                                     | 2021.09.15 |
| 3  | The impact of COVID-19 pandemic on the utilization of ambulatory care for patients with chronic neurological diseases in Japan: Evaluation of an administrative claims database                           | <a href="https://doi.org/10.5582/bst.2021.01194">https://doi.org/10.5582/bst.2021.01194</a>                                           | 2021.10.01 |
| 4  | Prevalence of Noncommunicable Diseases in Japan Using a Newly Developed Administrative Claims Database Covering Young, Middle-aged, and Elderly People                                                    | <a href="https://doi.org/10.31662/jmaj.2021-0189">https://doi.org/10.31662/jmaj.2021-0189</a>                                         | 2022.04.15 |
| 5  | Time-series analysis of blood pressure changes after the guideline update in 2019 and the coronavirus disease pandemic in 2020 using Japanese longitudinal data                                           | <a href="https://doi.org/10.1038/s41440-022-00961-w">https://doi.org/10.1038/s41440-022-00961-w</a>                                   | 2022.06.20 |
| 6  | A study to investigate the prevalence of headache disorders and migraine among people registered in a health insurance association in Japan                                                               | <a href="https://doi.org/10.1186/s10194-022-01439-3">https://doi.org/10.1186/s10194-022-01439-3</a>                                   | 2022.06.23 |
| 7  | DeSC データベースの概要と臨床疫学・薬剤疫学研究への活用                                                                                                                                                                            | <a href="https://doi.org/10.3820/jipe.27.11">https://doi.org/10.3820/jipe.27.11</a>                                                   | 2022.06.25 |
| 8  | Association of Smartphone-Recorded Steps Over Years and Change in Cardiovascular Risk Factors Among Working-Age Adults                                                                                    | <a href="https://doi.org/10.1161/JAHA.121.025689">https://doi.org/10.1161/JAHA.121.025689</a>                                         | 2022.07.15 |
| 9  | Postoperative Adverse Events and Re-treatment among Patients who have undergone Laparoscopic and Robotic Sacrocolpopexy for Pelvic Organ Prolapse in Japan                                                | <a href="https://doi.org/10.1002/ijgo.14497">https://doi.org/10.1002/ijgo.14497</a>                                                   | 2022.10.06 |
| 10 | Comparison of bleeding following gastrointestinal endoscopic biopsy in patients treated with and without direct oral anticoagulants                                                                       | <a href="https://doi.org/10.1055/a-1981-2946">https://doi.org/10.1055/a-1981-2946</a>                                                 | 2022.11.22 |
| 11 | Association between COVID-19 pandemic and mental disorders in spouses of intensive care unit patients                                                                                                     | <a href="https://doi.org/10.1007/s00134-022-06941-5">https://doi.org/10.1007/s00134-022-06941-5</a>                                   | 2022.11.29 |
| 12 | Recent trends in anti-vascular endothelial growth factor intravitreal injections: A large claims database study in Japan                                                                                  | <a href="https://doi.org/10.1007/s10384-022-00969-2">https://doi.org/10.1007/s10384-022-00969-2</a>                                   | 2022.12.12 |
| 13 | Risk of post-extraction bleeding with direct oral anticoagulant compared with warfarin: Retrospective cohort study using large scale claims data in Japan                                                 | <a href="https://doi.org/10.1016/j.thromres.2022.12.007">https://doi.org/10.1016/j.thromres.2022.12.007</a>                           | 2022.12.19 |
| 14 | Comparative effectiveness of long-acting injectable antipsychotics in patients with schizophrenia in Japan                                                                                                | <a href="https://doi.org/10.1016/j.schres.2023.01.019">https://doi.org/10.1016/j.schres.2023.01.019</a>                               | 2023.01.25 |
| 15 | Association Between Early Surgery and Postoperative Opioid Use in Patients With Lumbar Disc Herniation: A Propensity Score-Matching Analysis Using an Administrative Claims Database in Japan             | <a href="https://doi.org/10.1177/21925682231154854">https://doi.org/10.1177/21925682231154854</a>                                     | 2023.01.25 |
| 16 | Clinical characteristics, medication use, and impact of primary headache on daily activities: an observational study using linked online survey and medical claims data in Japan                          | <a href="https://doi.org/10.1186/s12883-023-03122-9">https://doi.org/10.1186/s12883-023-03122-9</a>                                   | 2023.02.21 |
| 17 | The prevalence of end-of-life chemotherapy and targeted therapy in Japan, assessed using a health claims database                                                                                         | <a href="https://doi.org/10.1007/s00280-023-04535-6">https://doi.org/10.1007/s00280-023-04535-6</a>                                   | 2023.05.01 |
| 18 | Multimorbidity, Polypharmacy, Severe Hypoglycemia, and Glycemic Control in Patients Using Glucose-Lowering Drugs for Type 2 Diabetes: A Retrospective Cohort Study Using Health Insurance Claims in Japan | <a href="https://doi.org/10.1007/s13300-023-01421-5">https://doi.org/10.1007/s13300-023-01421-5</a>                                   | 2023.05.17 |
| 19 | Practice patterns and costs of glaucoma treatment in Japan                                                                                                                                                | <a href="https://doi.org/10.1007/s10384-023-01002-w">https://doi.org/10.1007/s10384-023-01002-w</a>                                   | 2023.06.24 |
| 20 | DeSCデータベースのレセプトデータを用いたバイオ医薬品およびバイオシミラー使用による医療費分析                                                                                                                                                          | <a href="https://www.iyaku.info/archive/up_img/1688715429-531640.pdf">https://www.iyaku.info/archive/up_img/1688715429-531640.pdf</a> | 2023.07.10 |
| 21 | Association between dental procedures and periprosthetic joint infection: A case-crossover study                                                                                                          | <a href="https://doi.org/10.1016/j.jos.2023.07.017">https://doi.org/10.1016/j.jos.2023.07.017</a>                                     | 2023.08.01 |
| 22 | Are Dental Procedures Associated With Pyogenic Vertebral Osteomyelitis?                                                                                                                                   | <a href="https://doi.org/10.1097/CORR.0000000000002871">https://doi.org/10.1097/CORR.0000000000002871</a>                             | 2023.09.01 |
| 23 | Real-world prevalence, time of diagnosis, and co-occurrence patterns of birth defects in live-born infants, 2014–2020: A health administrative database study in Japan                                    | <a href="https://doi.org/10.1002/bdr2.2247">https://doi.org/10.1002/bdr2.2247</a>                                                     | 2023.09.08 |
| 24 | Usefulness and difficulties with the thiopurine pharmacogenomic NUDT15 genotyping test: Analysis of real-world data in Japan                                                                              | <a href="https://doi.org/10.1016/j.jphs.2023.09.002">https://doi.org/10.1016/j.jphs.2023.09.002</a>                                   | 2023.09.08 |
| 25 | Long-term prognosis and clinical practice for new-onset ulcerative colitis in the era of biologics: A Japanese retrospective study                                                                        | <a href="https://doi.org/10.1002/jgh3.12957">https://doi.org/10.1002/jgh3.12957</a>                                                   | 2023.10.02 |

|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|------------|
| 75 | Associated Factors and Causes of Chronic Disease Medication Oversupply                                                                                                                                              | <a href="https://doi.org/10.1248/bpb.b24-00551">https://doi.org/10.1248/bpb.b24-00551</a>                                                     | 2024.12.07 |
| 76 | Assessing the Risk of Gastrointestinal Perforation Associated with COVID-19: A Self-Controlled Case Series Study                                                                                                    | <a href="https://doi.org/10.1093/aje/kwae448">https://doi.org/10.1093/aje/kwae448</a>                                                         | 2024.12.10 |
| 77 | Treatment trends and risks of corticosteroid use in adult primary immune thrombocytopenia: a claims database study in Japan                                                                                         | <a href="https://doi.org/10.1007/s12185-024-03897-8">https://doi.org/10.1007/s12185-024-03897-8</a>                                           | 2024.12.12 |
| 78 | Differential Coronary Heart Disease Risk Among Antihypertensive and Lipid-lowering Medication Users Versus Non-users: A Real-world Data Analysis                                                                    | <a href="https://doi.org/10.1016/j.jacl.2024.12.006">https://doi.org/10.1016/j.jacl.2024.12.006</a>                                           | 2024.12.16 |
| 79 | Real-world treatment patterns and survival in extensive stage small-cell lung cancer in Japan                                                                                                                       | <a href="https://doi.org/10.1093/jjco/hyae175">https://doi.org/10.1093/jjco/hyae175</a>                                                       | 2024.12.20 |
| 80 | Association of estimated glomerular filtration rate with the incidence of sleep apnea syndrome                                                                                                                      | <a href="https://doi.org/10.1093/sleep/zsae302">https://doi.org/10.1093/sleep/zsae302</a>                                                     | 2024.12.20 |
| 81 | Cardiovascular Safety and Fracture Prevention Effectiveness of Denosumab Versus Oral Bisphosphonates in Patients Receiving Dialysis : A Target Trial Emulation.                                                     | <a href="https://doi.org/10.7326/annals-24-03237">https://doi.org/10.7326/annals-24-03237</a>                                                 | 2025.01.07 |
| 82 | Sex-specific association of comorbid heart failure on mortality after Alzheimer's disease diagnosis in older adults aged 75 years and above: A health insurance claims data analysis in Japan                       | <a href="https://doi.org/10.1177/13872877241305813">https://doi.org/10.1177/13872877241305813</a>                                             | 2025.01.10 |
| 83 | Prevalence, Patient Characteristics, and Treatment of Patients with Hypertrophic Cardiomyopathy: A Nationwide Payer Database Study.                                                                                 | <a href="https://doi.org/10.1007/s40119-024-00396-z">https://doi.org/10.1007/s40119-024-00396-z</a>                                           | 2025.01.15 |
| 84 | Quality of Life in Adults with Atopic Dermatitis in Relation to Disease Severity: Nationwide Data in Japan                                                                                                          | <a href="https://doi.org/10.1007/s13555-024-01333-7">https://doi.org/10.1007/s13555-024-01333-7</a>                                           | 2025.01.16 |
| 85 | Comparative cardiovascular safety of romosozumab versus bisphosphonates in Japanese patients with osteoporosis: a new-user, active comparator design with instrumental variable analyses                            | <a href="https://doi.org/10.1093/jbmr/zjaf010">https://doi.org/10.1093/jbmr/zjaf010</a>                                                       | 2025.01.17 |
| 86 | Changes in Physical Activity Across Cancer Diagnosis and Treatment Based on Smartphone Step Count Data Linked to a Japanese Claims Database: Retrospective Cohort Study                                             | <a href="https://doi.org/10.2196/58093">https://doi.org/10.2196/58093</a>                                                                     | 2025.01.20 |
| 87 | Adverse events, including fractures, among older patients receiving mirogabalin versus pregabalin: A retrospective cohort study using a large claims database in Japan                                              | <a href="https://doi.org/10.37737/ace.25008">https://doi.org/10.37737/ace.25008</a>                                                           | 2025.01.24 |
| 88 | Comparison of the incidence of proteinuria and changes in eGFR among febuxostat and topiroxostat users                                                                                                              | <a href="https://doi.org/10.1007/s10157-025-02630-x">https://doi.org/10.1007/s10157-025-02630-x</a>                                           | 2025.01.29 |
| 89 | The relationship between depression and cardiovascular disease in older people: results from a large-scale epidemiological cohort study in Japan                                                                    | <a href="https://doi.org/10.1007/s41999-024-01128-1">https://doi.org/10.1007/s41999-024-01128-1</a>                                           | 2025.02.01 |
| 90 | Risk of Fracture Associated with Pregabalin or Mirogabalin Use: A Case-Case-Time-Control Study Based on Japanese Health Insurance Claims Data                                                                       | <a href="https://doi.org/10.1007/s40264-025-01516-x">https://doi.org/10.1007/s40264-025-01516-x</a>                                           | 2025.02.11 |
| 91 | Quality-adjusted Life Years and Costs of Mechanical Thrombectomy for Very Elderly Patients with Acute Ischaemic Stroke                                                                                              | <a href="https://doi.org/10.2176/jns-nmc.2024-0157">https://doi.org/10.2176/jns-nmc.2024-0157</a>                                             | 2025.02.15 |
| 92 | Comparison of Efficacies of a Blonanserin Transdermal Patch and Blonanserin Oral Formulation for Psychiatric Symptoms in Patients With Schizophrenia Treated With Laxatives Using a Japanese Claims Database        | <a href="https://doi.org/10.1002/npr2.70003">https://doi.org/10.1002/npr2.70003</a>                                                           | 2025.02.21 |
| 93 | 2型糖尿病患者における高血圧症・脂質異常症の治療薬の併用による週1回DPP-4阻害剤の治療継続性への影響: Real world dataを用いたレトロスペクティブコホート縦断研究                                                                                                                          | <a href="https://www.shinryo-to-shinyaku.com/db/pdf/sin_0062_02_0081.pdf">https://www.shinryo-to-shinyaku.com/db/pdf/sin_0062_02_0081.pdf</a> | 2025.03.01 |
| 94 | Association between immune checkpoint inhibitors and uveitis in patients with lung cancer, renal cell carcinoma, or malignant melanoma                                                                              | <a href="https://doi.org/10.1016/j.jco.2025.02.010">https://doi.org/10.1016/j.jco.2025.02.010</a>                                             | 2025.03.18 |
| 95 | Patient Journey to Transthyretin Cardiac Amyloidosis Diagnosis -A Japanese Claims Database Study -                                                                                                                  | <a href="https://doi.org/10.1253/circj.CJ-24-0666">https://doi.org/10.1253/circj.CJ-24-0666</a>                                               | 2025.03.25 |
| 96 | Family pharmacist system for patients with chronic cardiovascular or endocrine disease                                                                                                                              | <a href="https://doi.org/10.1001/jamanetworkopen.2025.60398">https://doi.org/10.1001/jamanetworkopen.2025.60398</a>                           | 2025.03.28 |
| 97 | Prescription patterns of comedications associated with drug-drug interactions risk in HCV-infected patients undergoing direct-acting antiviral treatment: an analysis of an administrative claims database in Japan | <a href="https://doi.org/10.1186/s40780-025-00442-5">https://doi.org/10.1186/s40780-025-00442-5</a>                                           | 2025.04.18 |
